

LED indicator to inform of current status

A glance at the LED indicator tells you the display's current operating status in three distinct colors. When in normal mode (luminance is stabilized), the LED is not lighted to minimize negatively impacting the diagnostic interpretation.

Models supported : ME551i2, ME355i2, ME253i2, ME351i, ME251i, CCL350i, CCL250i, CCL212 /r
