

Sets new benchmarks in comfort, clarity and compatibility

Designed by the world renowned L2Design (Denmark), this innovative headset from Teleconnectors is the finest in its class in style, voice quality or comfort.

SmartReceive® System protects your ears from exposure to loud volume levels which can impair hearing over the long term.

Connects directly to many telephone or PC through a suitable bottom adaptor or cable. Compatible with all standard telephones and soft phones.

The C Plus microphone incorporates noise cancelling technology.

Designed for Comfort

Designed to ensure comfortable and flexible use, crystal clear audio and higher levels of productivity.

Lightweight, over-the-head design - for all day comfort.

Adjustable Headband - Eternal safety with perfect and comfortable fit for long duration use.

Adjustable and click to stop microphone boom - for personalised settings.

Robust design - Specially crafted for heavy duty use; call centre applications.

Designed for Voice Clarity

Unique Mic mouth design and the advanced noise cancellation Mic eliminate background noise in the loudest of environments.

Earpiece Innovation - designed to make the headset automatically adjust to the shape and angle of the user's ear. Special ear cushions add to wearing comfort.

Designed for Compatibility

The C Plus can be used directly with a telephone, a USB adaptor and stereo pin terminals for sound cards.

- Design innovation
- Voice clarity
- Comfort
- Compatibility
- Fatigue free talk
- Improved productivity
- User satisfaction
